

IN THE SPECIFICATION:

Please amend the paragraph on page 3, line 25 as follows:

A common display or a display on each machine displays the accumulated value of the combinations within the second group of combinations generated by all the linked gaming machines. The display on each machine may be a video display that displays ~~the~~ a main game as well as ~~the~~ a bonus game. Since both games can be run using the same electrical circuitry (e.g., memory and a processor), no additional hardware is needed.
